The alert eagerness that makes a dog strain at his leash and the hearty stamina that keeps him hunting hard all day long... these things require the top-notch condition that comes from expert care and "every inch" nutrition. Gaines—with its abundance of tasty meat meal, plus cereals, milk nutrients, minerals and vitamins A, B₁, B₂, B₆, D, E, niacin and pantothenate—gives your dog that kind of nutrition, because every pound of Gaines provides:

For strong muscles and sturdy growth—as much proteins as in 1½ lbs. beef

For hard-driving energy—as much carbohydrates as in 2 qts. cooked oatmeal

For sleek appearance and glossy coat—as much fats as in 1 oz. butter

For strong bones and teeth—minerals equivalent to those in 1½ lbs. cheese

For red-blooded stamina—as much iron as in ½ lb. beef liver

For clear, alert eyes—as much vitamin A as in 5 eggs

For hearty appetite and steady nerves—as much thiamine (B₁) as in 1 lb. whole-wheat bread... as much riboflavin (B₂) as in 1 qt. milk...as much niacin as in ½ lb. fresh mackerel... and all other members of the B-complex which normally accompany thiamine, riboflavin and niacin.

Gaines Food Co., Inc., Sherburne, N. Y.

Available in 2-lb., 5-lb., 10-lb., as well as 25-lb. and 50-lb. bags

Breeder—Donald Kells by Sudden Jim—Tillie of Moira. 2/14/42.

*Field Trial Championship subject to confirmation by A. K. C.
It is entirely fitting that the first National Championship Field Trial for English Springer Spaniels should be sponsored by The English Springer Spaniel Field Trial Association, the Parent Club of the Breed in the United States.

When this Association was formed in 1924 there were few Springers in the United States and no field trials for the breed. Since that time, under the wise and benevolent leadership of the Parent Association there are now many thousands of Springers used as gun dogs each autumn and there were in 1946 some twenty-two trials held for the breed where championship points were awarded. Thus the Springer Spaniel, youngest of all gun dog breeds in this country, has made rapid strides and established itself as a leading contender for the title of all around gun dog, under the leadership of the Parent Association.

This first National Field Trial meeting for English Springer Spaniels is a sincere attempt to establish by equitable and sporting means the National Champion dog or bitch in the United States. The only restriction on contestants for the title being that they must have previously placed first, second, third or fourth during the calendar year, in a Trial for the breed in this country where championship points are awarded.

It is the purpose of this Trial to determine the best Springer of the year under the usual and customary trial procedures but covering more trial days and more series per dog, in order that consistent, outstanding, dog work over the entire trial may be demonstrated and the element of luck eliminated as nearly as possible in the final judging of all contestants. Thus no trick or unusual tests will be allowed and the dogs will be tested in a manner approximating a rough days shoot adjoining water as closely as is possible with planted game. There will be a minimum of five land series and two water series and the winning and placing dogs will be required to complete all series to receive an award. The trophy for the best amateur handler in the trials will be awarded only in the event that the recipient is able to complete all series required of the winning and placing dogs.

MAY THE BEST DOG WIN!

The following clubs have contributed and will support the National Trial.

Cocker Spaniel F. T. Club of America.
English Springer Spaniel Club of Central States.
English Springer Spaniel F. T. Club of Illinois.
English Springer Spaniel Club of Michigan.
English Springer Spaniel Club of Southern California.
Illinois River Field Trial Association.
Nebraska Dog and Hunt Club.
Northwest English Springer Spaniel Club.
Ravenna English Springer Spaniel Club.
Sportsmen’s Spaniel Club of Calumet.
Valley Forge F. T. Association.
Western Washington English Springer Spaniel Club.
Wisconsin Amateur F. T. Club.
Armour's complete canned dog food

Dash is the food dogs go for—and quick! Impartial feeding tests conducted in independent homes and kennels prove 95 out of 100 dogs take to Dash eagerly—right from the start! Moreover, Dash provides complete nourishment for your dog... unsurpassed by any dog food today in its fine quality ingredients. No mixin—no fixin'!

LIVER is the meat that is:
- Richest in all the vitamins (A, B, D and G) your dog needs for fine growth, nerves and appetite.
- Richest in phosphorus— for building strong bones and teeth.
- Richest in iron and copper— for rich, red blood and protection against anemia.
- Richest in proteins for building solid flesh and strong muscles.
Best Wishes to the

STANDARD PROCEDURE for SPANIEL FIELD TRIALS

1. The idea of a Spaniel Field Trial is to demonstrate the performance of a perfectly trained Spaniel in the Field. The performance of a Spaniel in Field Trials should not differ from that in any ordinary day's shooting, except that in the Trials a dog should do his work in a more nearly perfect way.

2. The function of a hunting Spaniel is to walk at heel (or on a leash) until bidden to seek game. When so ordered, he should seek game in a brisk, quiet manner thoroughly quartering the designated cover within gunshot in the line of quest without unnecessarily covering the ground twice and flush game boldly and without urging. When game is flushed, dogs should drop or "hup" to flush or command, and, if game is shot, should retrieve at command only, but not until the Judge has instructed the handler. Dogs should retrieve quickly and briskly when ordered to do so and deliver tenderly to hand. They should then drop or "hup" until given further orders. Spaniels who bark or give tongue while questing are objectionable and should be severely penalized.

3. If a dog, following the line of a bird or rabbit, is getting too far out he should be called off the line and later he should again be cast back on it. A dog which causes his handler and gun to run after him, while line running, is out of control. Handlers may control their dogs by hand, voice, or whistle, but only in the quiet manner that would be used in the field. Any loud shouting or whistling is evidence that the dog is hard to handle and, in addition, is disturbing to the game.

4. A dog should work to his handler and gun at all times. A dog which marks the fall of a bird, uses the wind, follows a strong runner which has been wounded, and will take direction from his handler is of great value.

5. When the Judge gives a line to a handler and dog to follow, this must be followed and the dog not allowed to interfere with the other contestant running parallel to him.

6. The Judges must judge their dogs for game finding ability, steadiness, and retrieving. In game finding the dog should cover all his ground on the beat, leaving no game in his territory and showing courage in facing cover. Dogs must drop to wing and shot and obey all commands. When ordered to retrieve they should do this tenderly and with speed. No Trials for Spaniels can possibly be run without retrieving, as that is one of the main purposes for which a Spaniel is used.

7. In judging a Spaniel's work Judges should give attention to the following points, taking them as a whole throughout the entire performance rather than giving too much credit to a flashy bit of work.
   Control at all time and under all conditions.
   Scenting ability and use of wind.
   Manner of covering ground and briskness of questing.

(Continued Next Page)
Purina Dog Chow in Kibbled Meal and Checker forms are backed by 14 generations of dog feeding tests to attain the correct balance of proteins, vitamins, minerals and other food essentials so necessary for growth, top condition and beautiful coats. In addition, Purina Dog Chows have the extra taste appeal that dogs really go for.

See your local Purina dealer today for Purina Dog Chow.

Est. 1884

STORES LOCATED AT

CARTERVILLE, HERRIN, CARBONDALE, MARION, WEST FRANKFORT, BENTON, DUQUOIN AND MT. VERNON

Headquarters for Hart, Shaffner & Marx Clothes
STANDARD PROCEDURES (Continued)

Perseverance, and courage in facing cover.
Steadiness to flush, shot and command.
Aptitude in marking fall of game and ability to find it.
Ability and willingness to take hand signals.
Promptness and style of retrieve and delivery.
Proof of tender mouth.

Where facilities exist and water test are held in connection with a stake, manner and quality of the performance therein should be given consideration by the Judges in making their awards. Such tests should not exceed in their requirements the conditions met in an ordinary days rough shot adjoining water.

8. The Guns should shoot their game in a sportsmanlike manner, as they would in a day’s shoot. The proper functioning of the Official Guns is of the utmost importance. The guns are supposed to represent the handler up to the time the game is shot, although not interfering in any manner with his work or that of the down brace. They are supposed if possible, unless otherwise directed, to kill cleanly and consistently, the game flushed by the Spaniels at a point most advantageous to a fair trial of their ability, with due regard to the dogs, handlers, judges, gallery and other contingencies.

9. Care should be taken not to shoot so that the game falls too close to the dog. If this is done it does not afford a chance for the dog to show any good retrieving ability and often results in a bird being destroyed. The guns should stand perfectly quiet after the shot, for otherwise they may interfere with the dog or handler. When a dog makes a retrieve no other birds or game should be shot unless ordered by the Judge for special reasons. The guns must also keep himself in the correct position to the handler and others.

10. It has been repeatedly proven that the most efficient gun and load for this work, in all fairness to the dogs, handlers and those responsible for the trial, is a well choaked twelve gauge double gun, and a load of not less than three drams of smokeless powder, and one and one-eighth ounces of number six chilled shot. It is permissible to use a 12 gauge pump or automatic gun provided not more than 2 shells are in the gun at any time. It is earnestly requested that all guns will be guided thereby, for the good of the sport.
